

## US NATIONAL SCIENCE FOUNDATION (NSF) ADVANCED STUDY INSTITUTE FOR GRADUATE STUDENTS

### *Using Nanotechnology for Fabricating New Biomaterials & Next-generation Electrodes*

*Laboratory of Engineering Mechanics of AUT  
12-24 July 2023*

- Fully funded by the US National Science Foundation for US graduate students.
- Organized by Professors K.E. Aifantis (Univ. Florida) and A. Konstantinidis (Aristotle Univ.)
- Spend ten days at the Lab of Engineering Mechanics of Aristotle University of Thessaloniki, learning about nanomaterials, including hands on experiments.
- Get a cultural experience of the Ancient and Byzantine Greece.
- Continue collaborating throughout the next academic year and present your work at a conference.

If interested, send your application materials to Prof. Katerina E. Aifantis [kaifantis@ufl.edu](mailto:kaifantis@ufl.edu) (US participants) or Prof Avraam Konstantinidis [akonsta@civil.auth.gr](mailto:akonsta@civil.auth.gr) (Greek participants)
